

Dynamic, capability-based readiness assessment solutions

Core Competencies

Agile Software Development
Defense Readiness Reporting
Net-Centric Enterprise Solutions

Development & Support
Business Intelligence
Onsite Customer Support & Training

InnovaSystems is an agile and iterative development solutions provider of data integration and web services-based enterprise readiness systems for the U.S. Department of Defense, the Office of the Secretary of Defense and other federal, state and local government agencies.

Designed to support the National Security Strategy, we develop effective capability-based readiness assessment solutions by optimizing disparate data sources and operational systems to reduce costs, maximize efficiencies and streamline access to critical data.

Onsite Customer Service and Support

InnovaSystems is strategically located with many of our key customers, allowing us to provide fast, convenient and timely support. We endeavor to build enduring business relationships based on mutual trust and the delivery of reliable products and services, and strive to make every customer a promoter.

We focus on learning about your business as if it were our own. By identifying and understanding your business challenges, we work collaboratively to leverage our experience and expertise to build the best solutions.

Our Approach

Value, innovation and customization define our unique approach to developing robust, data-driven systems at competitive costs.

InnovaSystems strives to provide customer benefits at the best value. We deliver products and services that are unique and difficult to imitate by competitors, and offer solutions which can be leveraged for similar applications—allowing for quick turnaround times and greater cost-savings.

InnovaSystems provides an essential and vital service to support our National Security Strategy by delivering customized solutions that are on time—and on budget.

We are an innovative technology company that excels at creating dynamic enterprise-wide solutions with an emphasis in agile and iterative development; data management; business intelligence; system architecture; mobile development; and premier customer service. Key government organizations, such as the Armed Forces, the Office of Secretary of Defense (OSD) and Department of Homeland Security (DHS), rely on us to provide a wide range of capability-based readiness assessment solutions. Headquartered in San Diego, California, InnovaSystems has over 350 employees in 30 offices throughout the United States and internationally.
